WHAT IS CW-FIT?

Evidence-based classroom management system since 2007

- Increases student engagement and teachers' praise
- Reduces disruptive behavior
- Integrates PBIS at the classroom level

Flexible

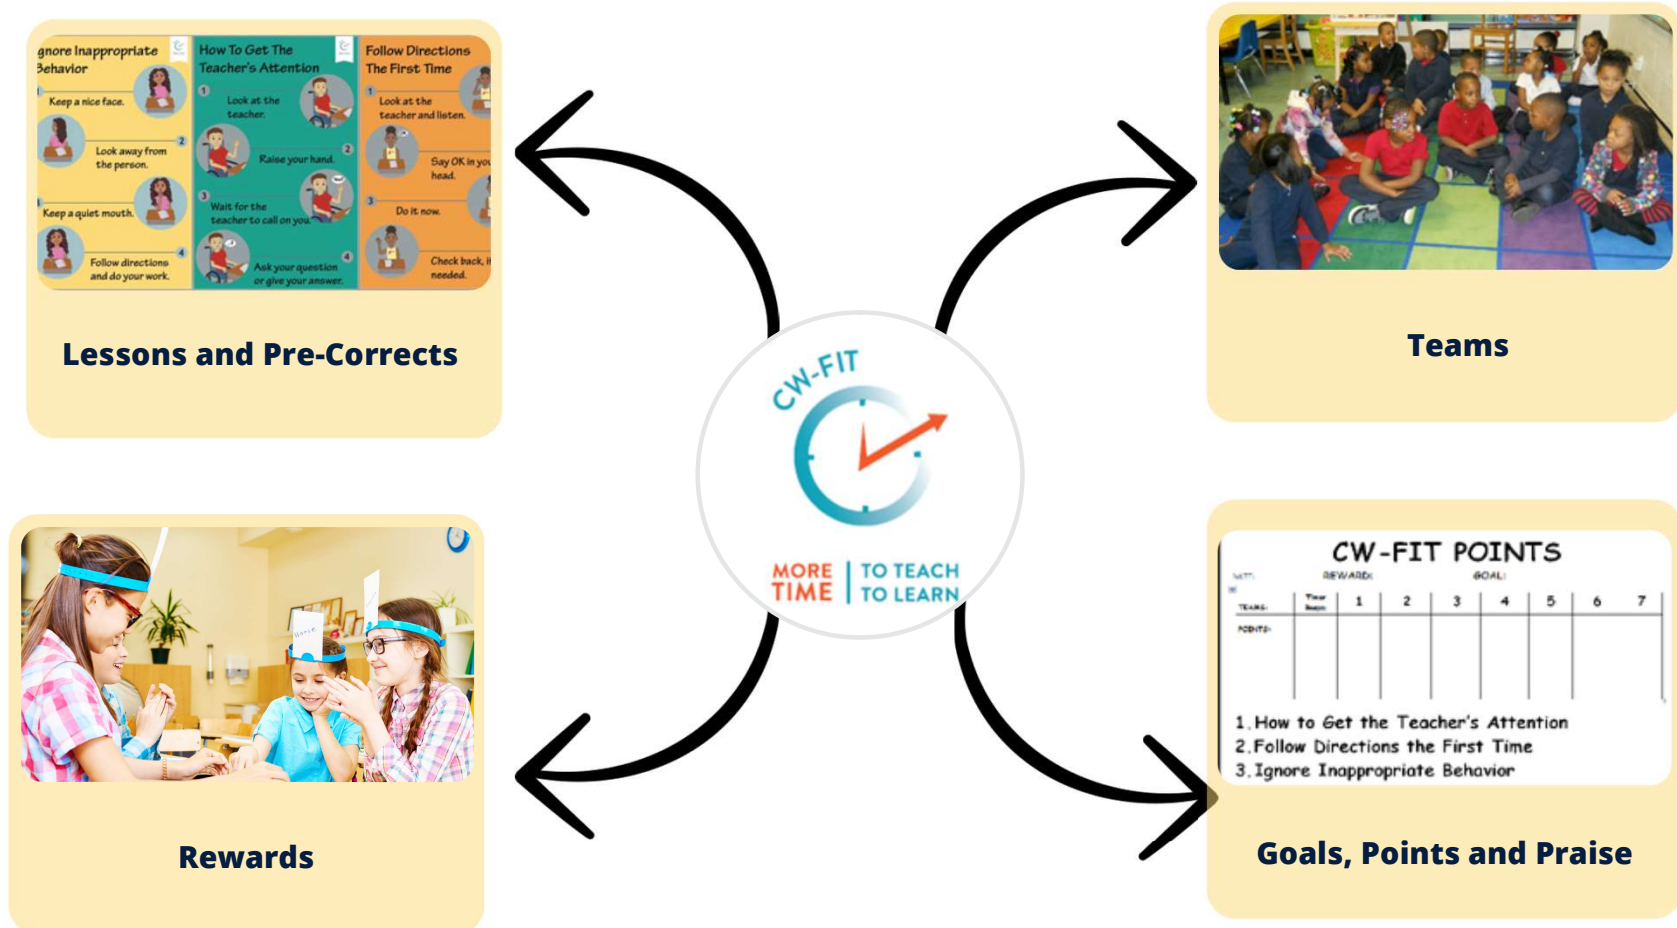

- Designed to integrate into daily lessons
- Works with a variety of class settings and teaching style
- Addresses common functions of problem behavior

Excellent job this week, Marcy! Right away, I heard you reference classroom expectations for following directions, the team point chart, and what the daily goal would be. You did a great job making the goal 80% of the lesson time, and nice work splitting the students into 4 teams to make it more manageable. You did an amazing job with your praise/points to reprimand ratio!

Study Design

- Funded through Education Innovation and Research (EIR) Program – Mid-Phase
- Cluster RCT at the teacher/classroom level
- Data presented from 2 out of 3 cohorts

Funding Mechanism

Education Innovation and Research (EIR) Program – Mid-Phase

- Mid-phase grants provide funding for the implementation and rigorous evaluation of a program that has been successfully implemented under an Early-phase grant or other similar effort, such as developing and testing an innovative education practice at a local level, for the purpose of measuring the program's impact and cost-effectiveness.

Collaboration between KU (developer) and SRI (independent evaluator)

Sample

- **Districts In Western & Midwestern States**
- **131 Classrooms randomized**
 - 67 assigned CW-FIT
 - 64 assigned control condition
 - 7 CW-FIT & 1 control teacher withdrew after randomization
- **Current Sample = 123 teachers/classrooms**
 - **60 CW-FIT & 63 Control**

Measures

- **Systematic Direct Observation**
 - Praise
 - Reprimands
 - On-Task
- **Classroom Environment Measure**
- **CW-FIT Fidelity**

Praise to Reprimand Ratio (PRR)

$$\frac{\text{\# praise statements}}{\text{\# reprimand statements}}$$

- Recommended PRRs range from 3:1 – 5:1
- One study found a ratio of 1/6.5*

*(Caldarella et al, 2021)

Analyses

- Fixed Effects Model
- Pairwise Deletion

Results

Table 1: Praise to Reprimand Ratio (n=109)

Variable	b	SE	p
Intercept	2.40	1.30	0.069
Baseline Score	0.40	0.18	0.025
Treatment	2.35	0.50	<.001
